<p style="text-align: center;">Customer Advisory Notice Legacy Scott Powered & Supplied Air Systems and Reusable Respirators & Filters- Product Portfolio Update</p>
--

Dear Valued Customer,

Following the acquisition of Scott Safety, we have continued bringing together the 3M and Scott Safety Powered & Supplied Air Systems and Reusable Respirators Portfolios with a view to maximizing value for our customers. Following on from previous discussions with your 3M/Scott representative in relation to this topic, we would like to provide you with an update with regards to plans for the 3M combined respiratory range.

During the process of integrating legacy Scott/3M respiratory ranges and deciding which products to take forward, we have carefully considered a number of factors including their popularity and relative features/benefits for our customers. An additional important consideration has been planning for the New PPE Regulation (EU) 2016/425 which will come into effect April 2019. As a leading manufacturer of PPE and leading proponent of product compliance, 3M will ensure all of its products are fully compliant with this new regulation.

Please see below a summary of focus products from legacy Scott range that are planned for integration into the future combined 3M Powered & Supplied Air and Reusable Respirators Portfolios moving forward:

Reusable Half Masks: AVIVA 40 & 50

Reusable Full Face Mask: Sari, Promask (not including Promask2) & Vision

Powered Air: Tornado with approved FH/FM headtops

Powered Air: Duraflow with approved FH/FM headtops

Powered Air: Proflow SC/EX 160 & Proflow 3 EX 120 with approved FH/FM headtops

Powered Air (Asbestos): Proflow Asbestos & Phantom Vision

Powered Air Headtops: FH1, FH2, FH21, FH31, FH6 versions, FH51/PC visor only

Filters: Pro2000 range, PF251

Continuous Flow Airline: Promask Combi

Timings for legacy Scott Air-Purifying product discontinuations are as detailed in the following information.

In 2018, the transition will be driven in 3 main phases. To help provide our users with enough time to assess alternative products and ensure a smooth transition, we are also listing below the products to be exited at the end of 2019. Dates are an indication of intended latest product availability subject to ongoing stock levels and demand. Although product discontinuations are operated in a timely manner, an additional list of slow/non-moving SKUs for immediate discontinuation is included at the end. **Where required, further discontinuations at SKU level may be expedited, for example due to dwindling demand. Please review the attached Excel file carefully to understand the planned discontinuation dates for all products at SKU level.**

In 2018, there are 3 discontinuation timeframes, immediately, 30th June and 31st December:

▪ **To be discontinued immediately:**

Product Category	Item	Recommended Replacement(s)
Headtops	Legacy T Procap	<ul style="list-style-type: none"> ▪ Duraflow with FH6 ▪ Proflow 160 with FH6
