

This is how simple the PM inspection service works.

1. Service dispatch note

You fill in the service receipt.

2. Shipment of the equipment

Please pack the respiratory protection system(s) to be serviced (blower, battery, harness, charging tray, hose, headpiece) into a cardboard box or, if available, into our reusable PM Service Box and enclose the completed service receipt with the package.

3. Order entry & cost estimate

Once we have received your shipment, our service team will review and records your order and sends you a cost estimate or a confirmation for your review.

4. Order confirmation / release

5. Order processing

6. Return of the equipment

Your equipment will be returned as soon as possible. You will receive the complete test documentation including the test report, as well as a new service certificate for your next maintenance.

(Optional: If required, we will send you new consumables directly. Please inform us in advance).
einfach im Vorfeld.)

7. Invoicing

For desired on-site service:*

Please contact our PM Service Team to arrange an appointment. They will contact you at short notice. Following the on-site maintenance work, you will receive the complete test documentation by mail/post.
per Mail/Post.

% Make your maintenance appointment at least 2 months in advance and benefit from our special early booking discounts. For further information please contact our PM Service Team.
